

Vulnerability Disclosure Policy

SafePorter is committed to upholding the highest standards of integrity in our operations. In the spirit of fostering a safe and secure digital environment, we invite the responsible disclosure of any security vulnerabilities that may be discovered in our digital products or services.

By encouraging open collaboration with the security research community and our users, we aim to address and mitigate potential security issues promptly and effectively.

Security

What is this policy?

SCOPE

We welcome reports on security vulnerabilities that could potentially affect the confidentiality, integrity, or availability of our digital environment or user data

This policy for responsible reporting of security vulnerabilities covers all digital platforms, products, and services provided by SafePorter, including , but not limited to, our web services, client side application, mydataprotected.com, ourdataprotected.com, APIs, cloud infrastructure, and any other components managed by our organization on AWS. Although we do not have direct control over the client-side DataProtected application, once deployed, we are at all time asking for reports of any vulnerabilities that affect the integrity, confidentiality, or availability of the information and services provided through our systems.

Who do I contact and how do I report a vulnerability?

CONTACT INFORMATION AND REPORTING GUIDELINES

Privacy is our business. To report a vulnerability, please contact us via Privacy@safeportsecure.com. Please ensure that your report includes as much detail as possible to help us understand the nature and scope of the issue.

When reporting a vulnerability, please provide a clear description of the issue, including the specific system or service affected.

Please also provide detailed steps to reproduce the vulnerability, if possible, and any relevant screenshots, logs, or other supporting material that could assist in the identification and verification process.

This helps ensure that we can validate and address the issue quickly.

Will my report be confidential?

CONFIDENTIALITY

Your privacy and security are of utmost importance to us. All reports will be treated with strict confidentiality.
